DETAILED ACTION

Claims 1, 7-22, 33, 34, 36 and 37 are currently pending in the instant application, appear allowable over the prior art of record and have been renumbered as claims 1-21.

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 6 September 2007 has been entered.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Keith Haddaway, Ph.D., Esq. on or about February 13, 2007. This examiner's amendment is providing the amendment to the specification originally presented in the notice of allowance mailed 22 March 2007 for clarity.

The application has been amended as follows:

1. In the Specification, insert ---This application claims benefit under 35 U.S.C. 119(e) to U.S. Provisional Application 60/430,789, filed on December 4, 2002.— after the Title on page 1 of the Specification.

Reasons For Allowance

The following is an examiner's statement of reasons for allowance: The instant invention is drawn to the compounds and compositions of Formula (I). The instant invention appears to be free of the art of record. The closest prior art reference of record is Weichert et al., US 5,693,672. The instant invention is not anticipated nor rendered obvious over Weichert et al. ('672) because the art of record is drawn to a guanidine derivative and the instant invention contains the provision that L3-R14 is not hydrogen.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
